

RESEARCH MENTORSHIP PROGRAM

2020 Call for Mentors

Join our program as a mentor!

Help create an academically inspiring summer for our next generation of researchers.

Research Mentorship Program (RMP) is a highly competitive, six-week summer program that engages qualified and talented high school students from all over the world in interdisciplinary and hands-on research.

Our students are bright, motivated, and possess the desirable technical and analytical skills, as well as the requisite lab safety training, to successfully undertake university-level research.

Research Disciplines

All dynamic research projects in the Sciences, Engineering, Humanities, and Social Sciences will be considered. Students are expected to engage in on-going, university-level research.

UC SANTA BARBARA
Summer Sessions

Program Dates

June 22 – July 31, 2020

Mentor Stipend

- \$1,000 per student mentored
- Up to \$60 in research supplies per student
