

## Professional Development Series (PDS)

for Postdocs and Graduate Students

### **2022 Summer Mentor Workshop Series**

The Center for Science and Engineering Partnerships (CSEP) is hosting a 3- part series of mentor training workshops open to anyone who will be mentoring this summer and wants to grow and develop their mentoring skills. Zoom links (if needed) will be provided after registration.

**Register here: <https://tinyurl.com/register-PDS>**

#### ***Designing an Undergraduate Research Project* Friday, June 10<sup>th</sup>**

**2-3 PM, Zoom**

**Workshop Leader: Prof. David Weld, Physics (UCSB)**

How do you determine the right scope and level of research for your summer scholar? What should you consider? This interactive workshop will tackle those questions and present ideas for how to nurture your scholar's independent thinking, how to deal with setbacks and how to check student progress.

#### ***Aligning Expectations with your Mentee* Thursday, June 23<sup>rd</sup>**

**12-1:30pm Elings 1605 \*Lunch provided\***

**Workshop Leader: Dr. Samantha Davis, CSEP (UCSB)**

In this workshop, Dr. Davis will lead discussions to help you clarify your expectations of your mentee and begin the necessary discussions to develop positive training relationships.

#### ***Developing Inclusive Mentoring Practices* Wednesday, July 20<sup>th</sup>**

**12-1PM, Zoom**

**Workshop Leader: PhD Candidate Timnit Kefela, Bren School (UCSB)**

This session will feature a discussion about empowering our mentees and improve our work environments through inclusive mentoring practices. We will provide resources for general use after the session to all who RSVP.
